📍 B-101, Freedom Fighter's Enclave, Saket, New Delhi-110068

Work Experience

Orions IT Solutions(Nov,2022 – April,2023)

Software Developer(Intern)

INTERNAL DASHBOARD

- Conceptualized and developed a dynamic **UI for the internal dashboard** that provided real-time data on user feedback, operations, marketing, and sales; saved 3 hours per week for each team member, resulting in a 20% increase in overall team efficiency

GOOGLE AUTH

- Implemented **Google Auth** for secure user login and OTP verification in the Dashboard, ensuring a streamlined and secure user experience

LANDING PAGES

- Designed and developed multiple effective landing pages for promotional marketing events, resulting in increased user engagement and conversions.

Projects

My Portfolio- <https://unrivaled-kitten-ab995e.netlify.app/>

User Data Management System

<https://meek-dolphin-da1a60.netlify.app/> <https://github.com/greyhound0/UserDataApp>

Cross column **drag and drop** functionality to manage user states between Active, Inactive and Removed, similar to Jira Boards. Library used – **react-beautiful-dnd**

Typing-Game

<https://neon-pothos-705d20.netlify.app/> <https://github.com/greyhound0/typing-game>

This projects displays **20 characters**(one at a time) and lets user enter them and by the end of correctly entering 20 characters the user gets to **know the time** taken by him/her to complete the game.

To-do List

<https://sweet-narwhal-0fa2af.netlify.app/> <https://github.com/greyhound0/to-do/tree/master>

Add, edit and clear items to the list of tasks he/she needs to complete that is generated in an ordered manner dynamically.

Responsive CSS Landing-Page

<https://reliable-gnome-b60e3a.netlify.app/> <https://github.com/greyhound0/landing-page>

A responsive CSS page made through React.js.

Attached a **download feature** plus it is made responsive for mobile and tablets too.

Education

- Galgotias College of Engineering and Tech.
BTech CSE(2020)
- DPS Kalyanpur, Kanpur

Technical Skills

- HTML
- CSS
- React.js
- Javascript
- Github
- Bootstrap

Soft Skills

- Optimum Communication Skills
- Adaptability to change
- Proficient in English(verbal and non-verbal)

About Me

I am a **curious** mind with an eagerness to indulge myself in problem-solving scenarios.

I have developed a good sense of **liking toward front-end development** and related technologies and **strive to achieve proficiency** in this domain to be a valuable asset to the organization.

I write some original content in my free time and also like to shoot still pictures as a hobby.
