Work Experience

SBA Orions IT Solutions(August 2022 - present)
Frontend Developer(Intern)

Client E-commerce Projects

- Experienced in **Context API**-based e-commerce marketplace development on React.js. Proficient in integrating **Razorpay payment gateways** and APIs, creating UI, and implementing core e-commerce functionalities.

INTERNAL DASHBOARD

- Conceptualized and developed **UI for the internal dashboard** and integrated APIs in **React.js** that provided real-time data(using **Chart.js**) on user feedback, operations, marketing, and sales; saved 3 hours per week for each team member, resulting in a 20% increase in overall team efficiency, also integrated **Google Oauth** for user-login

LANDING PAGES

- Designed and developed multiple effective landing pages for promotional marketing events, resulting in increased user engagement and conversions.

Projects

My Portfolio- **https://unrivaled-kitten-ab995e.netlify.app/**

Chat App

https://polite-buttercream-a2c5df.netlify.app/ *hhttps://github.com/greyhound0/chat-app*

A user would get a username and a password and can create a chat room to talk to another person in **real-time.** Made using **react-chat-engine**.

User Data Management System

https://meek-dolphin-da1a60.netlify.app/ *https://github.com/greyhound0/UserDataApp*

Cross column **drag and drop** functionality to manage user states between Active, Inactive and Removed users, similar to Jira Boards. Library used - *react-beautiful-dnd*

E-Commerce Website

https://aquamarine-rolypoly-fc99b4.netlify.app/ *https://github.com/greyhound0/e_commerece_website*

The website displays a range of products that a user can add to cart which when opened shows the products, their quantity and the cart total. Used **react-routing.**

YouTube Clone

https://strong-trifle-e86d25.netlify.app/ *https://github.com/greyhound0/youtube_clone*

A simplified youtube clone using a customized API that has a very basic functionality of selecting and playing the videos that has **pagination** and **react-routing.**

Education

- Galgotias College of Engineering and Tech. *BTech CSE(2020)*
- DPS Kalyanpur, Kanpur

Technical Skills

- **React.js**
- **Javascript**
- **HTML**
- **CSS**
- **Github**
- **Bootstrap**

Soft Skills

- Optimum Communication Skills
- Adaptability to change
- Proficient in English(verbal and non-verbal)

About Me

I am a **curious** mind with an eagerness to indulge myself in problem-solving scenarios.
I have developed a good sense of **liking toward front-end development** and related technologies and **strive to achieve proficiency** in this domain to be a valuable asset to the organization.
I write some original content in my free time and also like to shoot still pictures as a hobby.
